

AQUA FLOW

The Egyptian Company for Manufacturing Pipes and Fittings (AQUA FLOW) is one of the pioneering factories in Egypt and Middle East in the field of production of plastic pipes and fittings.

Chairman & Managing Director \ Hisham Madkour Aboulezz.

The company first started production in 1999, exclusively Polypropylene Random (PPR) used mainly in potable water networks, in our factory in El-Sadat City.

In 2015 we started operating our newer and bigger factory in 6th. Of October City, to expand our production capacity and increase our products range:

- Polypropylene Random (PPR) pipes and fittings.
- Polypropylene Random (PPR) Fiber Composite pipes.
- Polypropylene Random (PPR) UV Resistant pipes.
- Polyvinyl Chloride (PVC) non-pressure pipes and fittings.
- Ultraviolet Polyvinyl Chloride (U-PVC) pressure pipes.

The Company uses the most advanced production machines; extrusion lines, moulding machines and lab equipment.

Products goes through an intensive and precise testing process to be certain of maintaining the high quality of our products.

The Raw Materials used are of the best quality coming from the best suppliers in the world of American and European origin.
